Dear Sir/Madam

A453 Construction Works – Green Lane Junction update

Green Lane junction and the new eastbound carriageway construction works have hit the half way point. Laing O'Rourke, working on behalf of the Highways Agency, would like to take this opportunity to provide a progress update.

Most importantly we are on programme to reopen Green Lane as a roundabout junction in the middle of April. Excavations to start full depth road construction have gone well so far and the first layers of road foundations are in position. Kerb installation has begun and will progress in the coming weeks. As this work progresses you will start to see how the layout of the new junction will look upon completion.

We will shortly be switching the current entrance/exit route for Clifton Village from its current alignment (the original entrance road) onto the original exit road. This will free up the area on the A453 to the west of Clifton Village Green to construct the new access road into the village. At the same time, footpath construction work will commence from Garrett Grove through to Nottingham Trent University (NTU). Works for Green Lane are currently on target for completion mid April with final commissioning for this location to start week commencing 20 April.

Green Lane junction will continue to remain open throughout these works, with the current left-turn-in-only arrangement remaining in place. Traffic will continue to be able to turn out both left and right exiting Green Lane onto the A453.

Important information – traffic light testing and commissioning

From the end of March and throughout April we will be testing and commissioning traffic lights at the following locations: Crusader roundabout, the pedestrian crossing outside McDonalds (Man of Trent), Green Lane junction, NTU North Entrance and Farnborough Junction. Commissioning will mostly take place on Sunday(s) due to requirements of the commissioning and constraints currently in place relating to live carriageways. The first date is planned for Sunday 29 March which will be for Crusader Roundabout Traffic Lights.

For commissioning carried out during daylight hours, all traffic management will be removed from the specific area to observe the traffic lights in operation under their natural state. Once complete ALL traffic management will be reinstated.

If you have any questions regarding the information detailed above or would like to speak to a member of our liaison team, please contact Claire Brough (Mon-Wed) cbrough@laingorourke.com, Luke Mitchell (Wed-Fri) lmitchell@laingorourke.com or our night manager, Peter Byrne on 07823 362 474.

Yours faithfully,

A453 Widening Site Team, Urban Section

Keep in touch with the A453 Widening Scheme

- Meet the A453 Team surgeries, next sessions: [Wednesday 8 April and Wednesday 20 May](#).
- Join the A453 newsletter mailing list to keep up to date with monthly developments and upcoming work. Contact Luke Mitchell – lmitchell@laingorourke.com
- For weekly information about traffic management along the A453, visit the A453 Journey Impact page on the Highways Agency's website; www.highways.gov.uk, search A453.
