Derby Road works

September 2015

We are pleased to update you on our works to improve Derby Road between Maid Marian Way and Canning Circus.

These improvements are part of a programme of works to support economic growth.

The programme is funded by Nottingham City Council and the European Regional Development Fund (ERDF).

The south side of Derby Road is now complete. We would now like to let you know that we will have three work sites on the north side of the road. Unfortunately there will be a road closure at Derby Street which may affect you.

Section A – September to early October

Improvements here will continue until early October. The Pay & Display parking here will be back in use as soon as works are completed here and will continue to be available from this time onwards.

Section B – mid September to early October

Works include footway and kerb renewal to complete this area of works.

Section C – mid September to mid October

Works include constructing the new buildouts to make the junction narrower and create a plateau for improved pedestrian access.

Section D – early October to mid November

Works include footway and kerb renewal works. Pay & Display parking here will be removed during this time.

Section E – mid October to mid November

Works include constructing the new buildouts to make the junction narrower and create a plateau for improved pedestrian access. These works will require a road closure at the Derby Street junction with Derby Road. A diversion will be in place during this time via Derby Road, Canning Circus and Wollaton Street. The one-way system will be suspended to provide access to properties on Derby Street.

Section F – mid October to end November

Works include footway and kerb renewal works. Pay & Display parking here will be removed during this time.

Please note that Pay & Display parking will be removed adjacent to the works areas. However we have organised the work sites so that there will always be some pay & display parking available nearby.

Access to local businesses, loading and off street parking will be maintained throughout the works.

Tree pits will continue to be installed throughout the works and the trees will be planted before the end of November.

Nottingham City Council apologise for any inconvenience these works may cause.
